Data Collection

Data Usage & Data Controller: Cyber Ireland processes your personal data to administer your registration and deliver the conference. Cyber Ireland is hosted at Munster Technological University (MTU), who is the Data Controller for the personal data collected during registration.

Data Collected: We collect your name, email, organisation, job title, dietary/access requirements and payment details for the purpose of managing your registration and delivering the event.

Data Sharing: Your data may be shared with event partners such as the event platform provider (MTU), payment processors, professional conference organiser or service providers strictly for event delivery purposes.

Delegates' organisation and role will be shared with partners and sponsors.

Sponsors will have the function to collect delegate's contact detail (name, organisation, role, email), with their explicit permission using a mobile app / device to scan a QR code on their name badge.

Ingenious Media is the Conference Association Partner who will manage the Ticket Registration and Lead Scanning. For further details on how the Conference Association Partner processes delegates data, see their Terms & Conditions here.

Conference delegates acknowledge and agree that Cyber Ireland will process your personal data for the purposes of administering your registration and delivering the conference, which includes sharing relevant data with event partners and sponsors where appropriate to support event delivery.

You have the right to request access to, correction, or deletion of your data. For further information on how your data is handled please see the MTU Data Protection Policy.
