CYBER | IRELAND

IRELAND'S CYBER SECURITY CLUSTER

Membership Brochure

01.

Do you want to be part of the community?

Let's get the ball rolling.

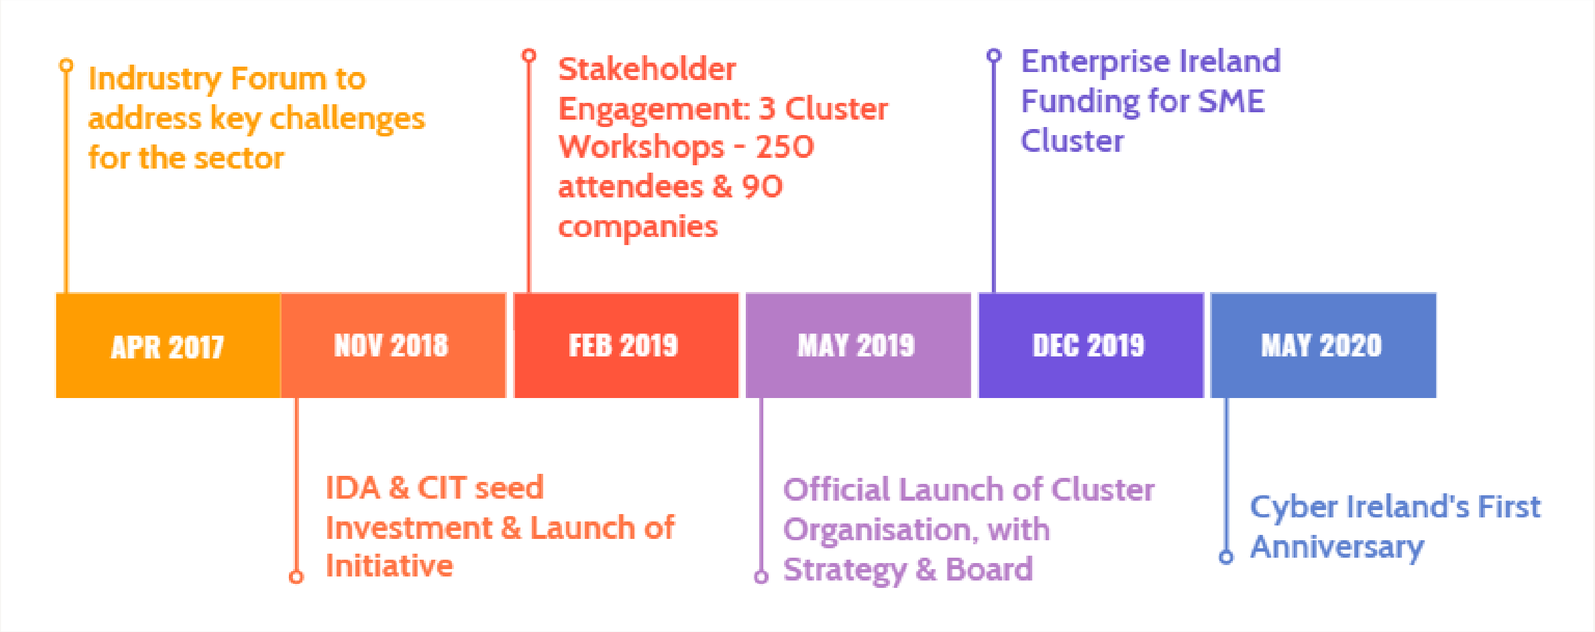
Cyber Ireland is the national cyber security cluster organisation. We are an Industry-led body, with support of academia and government, focused on addressing the needs and challenges of the cyber security sector in Ireland. We aim to enhance the Innovation, Growth and Competitiveness of the companies and organisations which are part of the cluster.

Cluster Development Timeline

Our history at a glance

At an Industry Forum in April 2017, a call was made to establish an representative body to address these challenges. This conversation was furthered at three Cluster Initiation Workshops in February 2019.

This led to the development of Cyber Ireland, hosted at Cork Institute of Technology.



Cyber Ireland Value Proposition

- **Influence** - Cyber Ireland works closely with government and national policy makers to represent the cyber security cluster and advocate for their needs.

- **Community** – Meet, share & learn through our networking events and regional chapters.

- **Talent** – Input into the Talent agenda and address the skills gap through improving industry-academic engagement and promoting cyber security careers & pathways.

- **R&D** – We match-make industry & academic research partners with available R&D funding.

- **Business Growth** – Promote your business through our network & events

Backed by Industry, Academia & Government

Cyber Ireland board is made up eight representatives from industry, three from academia and three from government. We are backed by Government Agencies and our role is highlighted in the National Cyber Security Strategy.

Why become a Member?

Building the Community

Talents & Skills

Research & Development

Business Development
